ABOUT US

World of Professionals is a leading conference and event organizer which specializes in professional high-level business conferences with a special focus on blockchain and cryptocurrency domain. Our network of domestic and international partners provides prompt solutions for any company's networking requirements. We prevail to advocate for the secure and responsible integration of blockchain and digital assets into mainstream life. Our primary goal is to help the crypto community in growing, to help the participants in understanding the basics, and to share our research with experienced enthusiasts.
